## SHORT PROFILE

### GENERAL SCOPE OF BUSINESS

*Set up in 2004, we operate as a coordination office with external specialists in the fields of **renewable energy, drinking water and innovation.***

*Our special service is defining, coordinating and managing R&D projects by taking a rough idea and matching it with practical / commercial need. Examples are EU-projects, national R&D funding or investor-financed development of products and procedures.*

*Good connections to universities and research organisations around Europe help us to find expertise where we need it.*
